A Flexible Equity & Bond Portfolio

- ▶ **A Rare Manager Combination.** The Fund combines two experienced management teams: The research-driven prowess of Tran Capital Management and the deep credit bench of Aristotle Pacific Capital.
- ▶ **A Flexible Allocation.** Dynamically allocating between 50-70% in sustainable growth-oriented large caps and 30-50% in high-quality investment-grade bonds, we believe the Fund is a one-stop, easy-to-implement solution.
- ▶ **Focus on Sustainability.** The Fund has a sustainable mandate—rare for balanced funds. In addition, both the equity and fixed income portfolios incorporate a process to find sustainable companies.

Investors should carefully consider the Fund's investment objectives, risks, charges and expenses before investing. For this and other information, please call 855.625.7333 or visit thecromwellfunds.com for a prospectus. Read it carefully before investing or sending money.

Mutual fund investing involves risk. Principal loss is possible. Each Sub-Advisor's use of its respective Environmental, Social, and Governance (ESG) criteria could cause the Fund to perform differently compared to funds that do not have such policies. The criteria related to this ESG framework may result in the Fund forgoing opportunities to buy certain securities when it might otherwise be advantageous to do so, or selling securities for ESG reasons when it might be otherwise disadvantageous for it to do so. There is no assurance that employing ESG and Sustainable strategies will result in more favorable investment performance. The value of debt instruments may fall when interest rates rise. Debt instruments with longer durations tend to be more sensitive to changes in interest rates, making them more volatile than debt instruments with shorter durations or floating or adjustable interest rates. The Fund invests in foreign securities which involve greater volatility and political, economic and currency risks and differences in accounting methods. The Fund is new with no operating history, and there can be no assurance the Fund will grow to or maintain an economically viable size, in which case the Board of Trustees may determine to liquidate the Fund.

The S&P 500 Index is a capitalization-weighted index of 500 stocks. The Bloomberg U.S. Aggregate Bond Index a broad base bond market index representing intermediate term investment grade bonds traded in the U.S. An investment cannot be made directly into an index.

Fund holdings and sector weightings are subject to change and should not be considered a recommendation to buy or sell any security.
